

Jimmy Temporao

Product Lead · Senior Product Manager

Paris, France · +33 6 64 72 95 08 · jimmy.temporao@gmail.com

Languages: French (native), Portuguese (native), English (fluent), Spanish (fluent)

PROFESSIONAL SUMMARY

Product Lead with 7+ years of experience driving high-impact digital products at scale, including platforms serving 10M+ users and 100M+ monthly streams, with all-time audience records for Radio France. Expert in product strategy, roadmap definition, agile delivery, and user-centered discovery. Proven ability to lead cross-functional teams (design, engineering, editorial, marketing) and Product Owners to optimize user engagement, conversion, and business performance. Skilled in data-driven decision-making, A/B testing, KPI tracking, and stakeholder management. Multilingual (French and Portuguese native, English and Spanish fluent) with experience across European and North American markets.

PROFESSIONAL EXPERIENCE

Senior Product Manager, Platform, Radio France

2023 - Present

Paris, France · Public broadcasting · Web & Mobile platforms

- **Led** product strategy for Radio France's website and mobile app, serving 10M+ users and generating 100M+ monthly streams across web and mobile, with all-time audience records for Radio France.
- **Drove** the end-to-end redesign of the Radio France mobile app (released August 2024), driving monthly streams from 50M to 83M (+66%) with store ratings now at 4.7 on Android (vs 3.9 before) and 4.8 on iOS.
- **Led** the redesign of the Radio France website (released March 2026) on a unified design system shared with the mobile app, generating +30% visits within the first 3 months.
- **Designed** the rollout of a BFF (Backend-for-Frontend) architecture and ongoing coordination with the API team to support both platforms.
- **Managed** and mentored a team of 3 Product Owners, aligning roadmaps and improving delivery velocity.
- **Defined** and prioritized the product roadmap in collaboration with design, engineering, marketing, and editorial teams.
- **Translated** business goals into measurable KPIs and OKRs, driving data-informed product decisions through A/B testing, analytics, and continuous discovery.

Product Manager, Editorial Tools, Radio France

2021 - 2023

Paris, France · Internal editorial tooling

- **Designed** and launched a new editorial CMS used by 3,000+ Radio France journalists to publish content across websites and the mobile app.
- **Applied** a user-centered approach with iterative discovery (user interviews, prototyping, usability testing) to ensure relevance and adoption.
- **Coordinated** agile ceremonies (sprint planning, reviews, retrospectives) with engineering and design teams.
- **Built** and maintained the product backlog, balancing user needs, technical debt, and business priorities.

Product Manager, Subscriptions, Lagardère

2019 - 2021

Paris, France · News & Media (Le Journal du Dimanche, Paris Match)

- **Developed** the first digital offering for Le Journal du Dimanche and Paris Match, creating a new digital ecosystem for print subscribers.
- **Achieved** 20,000+ newsletter sign-ups and 8,000+ digital subscriptions within the launch period.
- **Defined** acquisition and retention funnels in partnership with marketing and CRM teams.

- **Conducted** user research and competitive analysis to validate product-market fit.

Product Manager, AI, Radio-Canada

2018 - 2019

Montréal, Canada · Internal innovation lab

- **Designed** and tested prototypes (MVPs, PoCs) to streamline workflows for internal teams across departments.
- **Led** discovery sprints and user interviews to identify pain points and validate solutions.
- **Collaborated** with cross-functional stakeholders to scale validated prototypes into production.
